

PLANNING — GREENPATCH DEVELOPMENT — ODOUR MODELLING

**797. Hon BEN DAWKINS to the minister representing the Minister for Housing:**

I refer the minister to my question without notice C856.

- (1) Did the department of housing ask or represent to the Water Corporation to amend the greater Bunbury region scheme to reduce the odour buffer in Dalyellup?
- (2) Did the department ask or represent to the Water Corporation to further reduce the odour buffer from what is shown in figure 18 of the Water Corporation's odour modelling study?
- (3) Can the minister table the joint venture agreement between the department and the Satterley Property Group relating to the Greenpatch development; and, if not, why not?

**Hon JACKIE JARVIS replied:**

I thank the honourable member for some notice of the question. The following response has been provided by the Minister for Housing.

- (1)–(3) Buffer requirements are guided by State Planning Policy 4.1—Industrial Interface and do not form part of joint venture agreements. The buffer was established in 2013 through scheme amendment 0020/57 to the greater Bunbury regional scheme. Landowners and relevant government agencies were consulted as part of the scheme amendment process.
