**9. Native Forests** (*Notice given 11 November 2008*)

Hon Giz Watson: To move -

That in light of the Forest Product Commission's poor financial performance in the native forest sector; the failure of regulation and compliance of native forest logging; the impact of logging on the habitat of vulnerable species; the compelling evidence of native forest ecosystems at risk of irreparable damage; and the compounding impact of climate change, this House calls on the Government to -

- (1) Set in place a full transition to plantation and farm forestry for the production of commodity timber products currently derived from native forests.
- (2) Immediately develop an exit strategy for the native forest commodity timber industry.
- (3) Put in place an independently refereed, scientifically based program to restore the ecological integrity of native forests which underpins the delivery of clean air, clean water, carbon sequestration, biodiversity and natural heritage values of the South West region.
