Subject: RE: Standing Committee on Public Administration - Inquiry into Private Property Rights

Dear Krystian,

The Aquatic Resources Management Amendment Bill 2019 comprises technical amendments to the Aquatic Resources Management Act (ARMA) 2016 and will improve and clarify its operation. WAFIC supports these technical amendments.

Outside the scope of these amendments to ARMA legislation, the fishing industry is working together to provide policy and additional proposed amendments to address resource security for the fishing industry.

We hope to be in a position to provide an advance copy to your committee by early September.

Kind regards

Alex
