Question:

Hon K Travers MLC asked for a timeline and costings for foreshore erosion mitigation strategies contained in the Kwinana Freeway Foreshore Management Plan.

Answer:

The Kwinana Freeway Foreshore Management Plan prepared by Ecoscape was completed in August 2014. This plan updates the last Western Foreshore Management Plan adopted by the City of South Perth in 1993. A high level committee has been formed to oversee the development of plans and programs that guide the future management of the Swan River foreshore through South Perth. The Committee comprising Main Roads WA, the Department of Parks and Wildlife – incorporating the Swan River Trust – and the City of South Perth will produce a master plan for the rehabilitation and upgrade of this area now and into the future.
