Subject: QON: SUPPLEMENTARY INFORMATION #31 (Part (f))

Hi Steve

I understand you spoke to _____ at our office about response to Question 31 (Part f) asked at the Committee Hearings on 5 July 2012, Department of Corrective Services.

(f) How many cells house a single prisoner?

Answer: 106 cells have a single bed (i.e. 116 prisoners can be housed).

The correct response should be 106 - 106 cells have a single bed. Therefore, 106 prisoners can be housed.

Please call me if you need clarification or further information.

Regards

Liaison Officer
Office of the Hon Murray Cowper MLA
MINISTER FOR TRAINING AND WORKFORCE DEVELOPMENT;
CORRECTIVE SERVICES
