Public and Aboriginal Health

Ms Margaret Liveris
Committee Clerk
Standing Committee on Estimates and Financial Operations
Legislative Council Committee Office of Western Australia
Parliament House
PERTH WA 6000

Dear Ms Liveris

UNCORRECTED TRANSCRIPT FROM HEARING

Thank you for your e-mail of 25 June 2021 and the opportunity to correct any typographical or transcription errors or correct any factual information provided in the uncorrected transcript. There are no typographical or transcription errors in the transcripts of my responses. With regard to incorrect factual information, there is one correction I would like to make. On Page 12, I stated:

Dr ROBERTSON: Yes. The Pfizer is already available by some GPs. A number of the GP respiratory clinics are already providing Pfizer. As of 5 July, they will start rolling out Pfizer to, I think, initially 55 GP practices within WA. There will be a further 55, I believe, about two weeks later and they will continue to roll it out. So it is progressively rolling out through July to those GP practices.

Subsequent advice from the Commonwealth Department of Health noted that 137 GPs in WA had been approved for Pfizer vaccinations: 52 to commence the week of 5 July; 55 to commence the week of 12 July and 30 to commence the week of 19 July.

Yours sincerely

A handwritten signature in cursive script, appearing to read 'A Robertson'.

Dr Andrew Robertson
CHIEF HEALTH OFFICER
