**Question No. E3: Hon ALANNA CLOHESY asked -**

*During the hearing, there was some discussion around an audit undertaken on Registered Training Organisations (RTOs) that provide the unit of competency directly linked to tilt-up construction. The outcomes/findings of the audit were requested.*

Answer: Eight RTOs were audited with the following levels of overall compliance with the *Standards for Registered Training Organisations 2015* at the initial audit:

- Compliant – 1
- Minor – 4
- Significant – 1
- Critical – 2

Following the standard rectification period of 20 working days, seven RTOs achieved compliance. One RTO remains non-compliant and the Training Accreditation Council agreed to suspend the registration of the RTO. The suspension will remain in place until the RTO can demonstrate compliance.

**Question No. E4: Hon ALANNA CLOHESY asked -**

*Can you please supply the list of TAFE Colleges that are eligible to enter the program?*

**Answer:**

There are currently no TAFE Colleges that are eligible to enter the program.

RTOs are invited to participate in the program once the entity has established a successful track record of ongoing compliance. The TAFE colleges were registered as new entities in April 2016 and will undergo a post initial audit within 24 months. Following the post initial audit the TAFE colleges will be assessed against the eligibility criteria for the program.
