**Subject:** Human Reproductive Technology and Legislation Amendment Bill 2018 Submission

To whom it may concern,

I am writing a submission to you today in support of The Human Reproductive Technology and Legislation Amendment Bill 2018 and passing this bill in support of allowing same sex couples and single males access to surrogacy in Western Australia.

To not allow same sex male couples or single males an equal right to be able to have a family through surrogacy as other demographics of society is unfair and inconceivable to still be illegal in Western Australia in 2019

Personally I know of so many people who's lives would be changed for the absolute best if they were able to begin a family

My best friend Peter and his fiancé Danny are 2 of the most amazing people you could ever know and having children and a family of their own has always been a huge priority for them and their life together They truly are the greatest role models to so many people around them, most notably their siblings and nieces and nephews.

Family is everything to them and getting to create and enjoy so many moments and memories together enriches the lives of everyone who is around them - why should they not be allowed to have this?

I know they will be fantastic parents one day and cannot wait for them to get to experience everything that it has to offer and have their dreams of a family come true

Thank you for your time,  
Belinda Stewart
