Subject: Cannabis

Legalise don't penalise and criminalise the people of Western Australia any longer, I face 7months jail for two plants that weren't mine, I have tried everything and every legal path to get a prescription and still nothing a pain specialist told me to stick to Black market rather than prescribe me legally it's beyond a joke something must be done and as for other drugs the war on drugs has and will always fail, just go to Holland check out Amsterdam I went there I've Twenty years ago and the place is beautiful, but Perth could be nicer kind regards
