The Honourable Max Trenorden - MLC
Parliament House
PERTH WA 6000

Dear Hon. Trenorden

INQUIRY INTO RECREATIONAL ACTIVITIES WITHIN PUBLIC – DRINKING WATER SOURCE AREAS

Council for the Shire of Menzies refers to the Standing Committee Enquiry on public administration relevant to recreational activities within drinking water source areas and advise that whilst Menzies utilises the services of the Water Corporation in the provision of drinking water as supplied by the bore field, east of the town of Menzies, it does not deny that consideration to more populated areas does justify and warrant further consideration specially in Perth in terms of the Perth hills area, the south west areas and other locations where consideration to the benefits towards public health, recreation and indigenous culture, require consideration.

Accordingly, we thank you for this opportunity to submit a response but advise that this question does not apply to the Shire of Menzies.

Yours faithfully

B W Seale JP
Chief Executive Officer
Shire of Menzies
