**Subject:** access arrangements for the freshwater dams in WA's southwest

Hello members of parliment,

My name is David Fishlock and I have young family in the south west region of WA (Bunbury). I would like access to freshwater dams or waterways so my family can have a bushwalks and a picnic by these waterways and a swim, kayak or a fish. It would be great to be able to teach my family to fish in a safe environment with out the fear of rogue waves, encroaching on other anglers or strong winds. It would also add revenue to the department of fisheries with freshwater licence's being need to fish these waters.

yours Sincerely

David Fishlock
