**SUBJECT: INQUIRY INTO THE SHACK SITE IN WESTERN AUSTRALIA**

With regards to the standing committee on environment and public affairs inquiry into and report on information and issues to help government in the development of policy and the regulation of shack sites on public land in Western Australia.

My Family and I have never been able to afford international travel. Local getaways are what our holidays are based around.

We have always loved it when invited to a friends shack at Grey.

The coastline is clean and the locals keep the town orderly. Many State Parks and Caravan Parks we have visited have had refuse littered and an evident lack of respect for the West Australian coastline and surrounds. Shack owners show an obvious sense of responsibility to caring for Grey. They inspire environmental awareness to their children and visitors.

I believe the shacks provide a positive family orientated outlet for the blue collar worker.
