

Mr & Mrs James Cook

18/10/10

Dear sir or madame, re legislative enquiry into Cockburn cement ltd Munster. I wish to submit my opinion on the impact of the above. The dust emissions from this cement plant are totally unacceptable, our property is constantly covered in dust, as is our car. The odour from the plant is also a huge problem. It stops us from sitting outdoors frequently and I have to bring my grandchildren indoors as it gets very hard to breathe. I believe the company needs to act swiftly to rectify the matter.

yours faithfully
J Cook
