Ms Margaret Liveris,  
Committee Clerk, Standing Committee on Environment and Public Affairs,  
Legislative Council, Parliament House, GPO Box A11  
Perth - WA - 6837.

Thursday, 12 September 2013

Dear Ms Livris,

I herein advise your committee that any government official, administrator, employee, elected representative or private contractor historically or currently involved in the rigorously proven ecocide of hydraulic fracking will face criminal charges including the crimes of treason, eco terrorism and attempted genocide.

There exists an overabundance of compelling video evidence, exhaustively corroborated documentation and witness testimony that precludes requirement for further investigation or discussion. Anyone promoting this demonstrably toxic and environmentally ruinous practice does so in the full knowledge of its lethality upon all it contaminates, most especially its deadly impact upon public health. Government treats this preponderance of condemnatory evidence with malicious contempt. The same socio-psychopathic mindset forcefully suppresses over 5000 inventions (US Patent Office, Title 35, US code (1952) Sections 181-188) that would eliminate hydrocarbon fuel dependency overnight. The world's leading inventors now decline patenting wonderfully effective non-polluting energy inventions in the certainty they will be suppressed. However many thousands of these gifted inventors are working quietly towards exposing this corruption and ridding the world of the criminal insanity of fracking and the crime against humanity of clean energy suppression.

Your committee is strongly urged to assist this eminently desirable outcome or risk becoming part of the unlawful suppression.

Government has been provided robust evidence repeatedly confirming that fracking constitutes outright ecocide; but forever to no avail. All response has been obfuscation, distortion and outright lies couched in offensively threadbare attempts to defend what is profoundly indefensible. Please note unassailable evidence, global witness testimony and damning case histories will be used against all offenders in criminal proceedings in the newly emergent International Law Tribunal Court and the International Common Law Court of Justice. Be assured the gathering tsunami of well-informed public outrage will impel criminal actions individually targeting all the government and industry personnel responsible for this treasonous atrocity. The heinous crime against nature and against humanity of fracking is unmitigated ecocide / genocide and must be immediately and permanently banned worldwide. It is covert chemical warfare and will be duly prosecuted as such.

Yours sincerely,

Tony Lambert.
