Subject: Submission to the Inquiry into mechanisms for compensation for economic loss to farmers in Western Australia caused by contamination by genetically modified material
Date: Thursday, 8 February 2018 7:52:14 PM

Dear Committee,

I am writing to note that I do not support any new levy on growers or an unnecessary compensation scheme.

I would also like to ensure that the Committee considers the following facts in their deliberations:

1. GM technology has been shown to be safe and effective
 2. GM technology has been used globally in agriculture and a range of other fields for decades
 3. Other countries have GM and non-GM growers, side by side, without the need for levy schemes or compensation
-
2. Our family farm is at WYALKATCHEM and part of our cropping program is GM canola as it gives us weed control options that TT canola or Clearfield canola can not provide.

Kind regards,

Dale Tyler
