

My daughter attends a local primary school in the small town of Goomalling, our property is in the Shire of Goomalling, but as a school bus already drives past our property to attend a much bigger school in Northam, our request for a bus stop has been refused because I chose to send my Child to the town that our property belongs in. This is what SBS has said to me that I chose to send her to Goomalling not Northam it's my own fault and they won't even look at changing the school bus route. The bus driver is happy to change but not them. And I also work in the town part time, that's why i chose to send her to Goomalling. I think this it totally unacceptable. They are making me travel 11kms one way to the nearest bus stop. So I am doing 44kms a day and they aren't willing to compensate me. They also offered to change the route to a really bad intersection which I know a child will be seriously hurt or killed. I have nearly seen a truck re end a school bus. But to them that is acceptable. I can go on, please call me if you need anymore information.
