Dear Sir,

End of Life Choices

I would like to have the choice to determine how and when my life is to end, if I were terminally ill, suffering unbearably without the prospect of improvement, or if I had to depend on others for even the most basic care.

Suitable palliative care should be available to all who want it, however, I should also like to be able to get medical help for a peaceful death, as long as I am competent and have been informed of alternatives.

A good death should be a place of my choice, painlessly & peacefully, and with family & friends around me. Please give our medical professionals permission to do so.

Yours truly

To:

Joint Select Committee on end of life choices.
