Subject: Grave concerns about Human Reproductive Technology and Surrogacy Legislation Bill 2018

To whom it may concern,

My position regarding the proposed bill is that children have the right to know both their birth mother and birth father where possible. We live in an imperfect world where this is not always possible due to marriage breakdown etc but in my opinion to choose the desires of adults over the Rights of a child is in my view unacceptable.

Thank you for considering this when you review this legislation.

Kind regards
