Clair Silva

RE: The Delivery of Ambulance Services in Western Australia.

Dear Silva,

As introduction:

My name is Gale Williams a Senior Citizen and a Volunteer Ambulance Officer since October 2013. In a two-town branch setup that functioned extremely well at the time. Until the emergence of something not uncommon in small communities.

The emergence for nepotism and narcissism together with the consequences that lead to disillusionment and defection of very good volunteers. The damage done to these people was irreparable.

I would however make every effort to support the honest clear-thinking citizens who offer their services to their community via an essential Ambulance service.

Sincerely,

Gale C Williams
