

Ms Linda Omar, Committee Clerk, Standing Committee  
on Environment and Public Affairs.  
Legislative Council,  
Parliament House,  
PERTH, W.A. 6000.

Mrs. Leonie Morrison,

TO WHOM IT MAY CONCERN.

After moving to Beeliar six years ago my Husband and myself have health issues with the amount of dust that seems to decend on every single thing in this area. Keeping windows closed, doors locked etc makes no difference as this thick dark gray dust creeps in everywhere, there is just a layer of it over the furniture, the floors, the cars, the windows are thick with dust and we find we can't physically clean them every week, it's on just everything, every day, so it is no wonder that we sneeze, cough have sore eyes etc.

We are in our seventies and would dearly love to stay in our home to the end of our lives, it is very close to our daughter, and never had this particular problem even after staying in our previous home in Bullcreek for over thirty years.

If anything can be done to relieve our situation it would be wonderful.

Very sincerely,

L.J. MORRISON. (Mrs.)
