Ms Linda Omar  
Committee Clerk, Standing Committee on  
Environment and Public Affairs  
Legislative Council  
Parliament House  
PERTH WA 6000

Dear Linda,

I live in Yangebup quite a distance from the Cockburn Cement Plant but the dust emissions from Cockburn Cement are reaching our street. Every time I wash my car the next day it is covered in dust from Cockburn Cement. This is very annoying after spending hours cleaning it only to be dirty again. My neighbour has the same problem with his car being covered in dust also. The dust sticks to the cars. This is only going to damage the cars further. I have also seen the dust on our window seals.

Something has to be done now as it is only going to get worse. We have never had a problem with the dust emissions up until now. For the dust to be travelling that far there seems to be a problem and action needs to happen immediately not in 2 years time.

Regards

Rose
