To Cockburn Cement

My name is Loris Bola, I have lived in Spearwood since 21 years with my Husband and children.

My Husband was diagnosed with a form of bladder cancer recently and his son also had the same, who lives in Spearwood.

We wonder if this could be one of the effects from the constant lime fall out in the area.

Our outdoor settings is all covered in fine dust and I am constantly cleaning it.
The same for our cars.

Inside the house also, I am constantly dusting and especially the Computer and TV collect a lot of white dust.

I love to work in my garden and grow a lot of herbs and even there you can see all the dust on the plants, which makes me wonder how healthy is it for me to be outdoors and if some of it gets into the food.

I want Cockburn cement to do studies on health impact and I want to have it's
Licensed revoked until we know the results.

Regards

Loris Bola
