Subject: Re: Media Release

In response to the Media Release we would like to submit our thoughts:

The trend seems to be towards more expensive accommodation, e.g. units and cabins, where we see a need for short stay, low cost facilities, that accommodates families who enjoy camping e.g. grassed, shady areas for tents and caravans.

The above park being case and point.

The moves to change the premises and parks just like it are very sad and the change will be to the detriment of families in our state and to the business.

We have used this park for over 40 years and the during our last stay met with families who are upset at the idea of changes, which will be accompanied by increased cost and hardship for them who have larger families.

Will put this in the mail to you.

Yours sincerely
Rose and Gordon Haggett

Economics and Industry Standing Committee
Legislative Assembly
Parliament House
PERTH WA 6000.

Dear Dr Abernethie

In response to the Media Release we would like to submit our thoughts:

The trend seems to be towards more expensive accommodation, e.g. units and cabins, where we see a need for short stay, low cost facilities, that accommodates families who enjoy camping e.g. grassed, shady areas for tents and caravans. We and large amounts of people enjoy just that at Turner Caravan Park, Augusta.

The moves to change the premises and parks just like the above, are very sad and the change will be to the detriment of families in our state and to the business.

We have used this park for over 40 years and the during our last stay met with families who are upset at the idea of changes, which will be accompanied by increased cost and hardship for them who have larger families.

Will put this in the mail to you.

Yours sincerely
