---

To whom it may concern,

I am writing in regards to the select committee on personal choice and community safety.

I am specifically writing regarding helmet laws for adults riding bicycles on paths separated from the roads and cars. I believe the intent of this law was to protect people on bikes from head injuries when interacting with motor vehicles. I believe that removing an adults rights to choose not to wear a helmet when riding a bicycle on a path separated from the road and motor vehicles is overbearing and goes beyond the intent of the law. I believe the law should be amended to allow adults on paths separated from the road and motor vehicles the choice to wear or not wear a helmet.

Kind regards,  
William Seymour Matthews
