To Who It May Concern:

I am writing to express my outrage at the increased cost of firearm licensing fees that are being introduced into Western Australia. I feel that they are out of line with the fees that are paid across the rest of Australia. It would appear to myself and other legitimate users. Whether for sport, feral animal control or hunting purposes that this a increase to raise funds to correct the poor use of allocated monies that as a taxpayer we fund.

I urge you to review the current situation.

Yours Sincerely,

Murray. J. Whitson
