Dear Member

My name is Chad Guyatt of  
dams for recreational use (Fishing etc)

and I would like to register my interest in the use of our freshwater

If someone does not start acting in our interests soon W.A will become a state where no one is allowed to do anything and everything costs a fortune where there are so many policies and rules you have to be a lawyer to understand the rules and regulations .It is becoming ridiculous for the common man to enjoy this great state of ours .
