To whom it may concern

I would like to voice my concern to prposed legislative changes concerning 'Recreation Activities within Public Driking Water Source Areas."

These rules have been in place for a long time, abd I fewel that they should not be altered.

Most people enjoy bushwalking in a natural atmosphere, away from the noise of urban life, and banning people from these water source areas is not warranted,I feel.

Hopefully, reason will prevail, and laws , either Fedewral, State or Council will remain as they are.

Yours faithfully
