**Subject:** mileto street dianella

As the mother of [redacted] who is blind and has no speech I wish to add my name to those terrified at the suggestion dsc stops caring for my son and his friends. I am horrified at the thought that the place he knows as home and the people who care for him - who love and care for him and the others in the mileto street family are going to all be dispersed. Please do what you can to prevent this happening. Unfortunately I am in Exmouth and cant be in perth till november - if I can do anything to help retain dsc staff and nickys happiness please let me knoe. Regards kayleen freeman.
