Maggie Lilith

Petition to extend moratorium on the growing of Genetically Modified (GM) crops in WA

G. Water

To the President and Members of the Legislative Council of the Parliament of Western Australia in
Parliament assembled.

We the undersigned residents of Western Australia are opposed to commercial growing of GM crops in
this State as GM crops will inevitably contaminate non-GM crops and result in the loss of our 'clean
green' image. Furthermore, no adequate, independent health studies have been done to prove that GM
foods will not cause health impacts for current and future generations.

Your petitioners therefore respectfully request the Legislative Council to introduce a strict liability
regime to ensure all parties involved in bringing GM crops and/or food into Western Australia (including
growers and patent holders) will be held legally liable for any contamination incidents causing market
and economic loss, health impacts or environmental damage associated with GM crops/food.

Your petitioners respectfully request the Legislative Council to extend the moratorium on the growing
of GM crops in Western Australia until above issues have been addressed.

I certify that this Petition is in
conformity with the Standing Orders
of the Legislative Council

And your petitioners as in duty bound, will ever pray.
