**PETITION IN RELATION TO THE LACK OF RETICULATED ELECTRICITY TO
REMOTE COMMUNITIES SUCH AS WINDY HARBOUR**

To the President and Members of the Legislative Council of the Parliament of
Western Australia in Parliament assembled.

We, the undersigned residents of Western Australia condemn the current
discrimination against rural communities, such as Windy Harbour, who cannot
access reticulated electricity from the interconnected grid for residential,
public and industrial needs. This double standard treats Western Australians
inequitably and is unnecessary at a time of great State prosperity.

Your petitioners therefore respectfully request the Legislative Council Public
Affairs Committee investigate the social equity and community service
obligation of extending reticulated power to rural communities such as Windy
Harbour.

And your petitioners as in duty bound, will ever pray.
