c/o Save Our Trees,

in the State of Western Australia, am the promoter this

222 ~~12~~

petition which contains

signatures 

**Petition to repeal the destructive powers of the Metropolitan Redevelopment Authority and local governments, and to put to a referendum any further destruction of our public assets and our mature and heritage trees on the Perth Esplanade Reserve and all other public green spaces that are of value to our communities.**

To the President and Members of the Legislative Council of the Parliament of Western Australia in Parliament assembled.

We, the undersigned residents of Western Australia, are strongly opposed to the destruction of our public green spaces and to the on-going wood-chipping of our mature and heritage trees. We have evidence that this destruction has a negative impact on our natural environment, our mental and physical health, as well as our amenity. We believe that there will be long-lasting consequences for the well-being of future generations if the current ruthless destruction of our public green spaces and trees does not stop. In the absence of a referendum governments are not able to gauge the opinion of electors on such important matters.

Your petitioners therefore respectfully request the Legislative Council to support this petition. *And your petitioners, as in duty bound, will ever pray.*
