PETITION

To the President and Members of the Legislative Council of the Parliament of Western Australia in Parliament assembled.

We, the undersigned residents of Western Australia, say that the draft Canning Bridge Precinct Vision ('the CBPV') proposes zoning changes that are: inappropriate and too substantial for the precinct; that exceed the Canning Bridge Station Precinct Study area ('Study area'); that create inequities and unfairness for numerous residents; that are entirely inconsistent with the existing character of the locality; and that will significantly increase traffic congestion and related traffic issues in the precinct and for everyone driving through the precinct. Further, there has been inadequate consultation with the community concerning the CBPV.

Your petitioners, therefore humbly pray that the Legislative Council refer the CBPV to a Committee for further investigation into:

- 1 The need to seek further comment from the Community.
- 2 The desire to confine any plans to increase density to the Study area.
- 3 The need for a comprehensive traffic analysis before progressing further.
- 4 The need to secure funding for traffic improvements in the precinct before progressing further.
- 5 The desire of allowing the existing City of Melville's Community Planning Scheme No. 5 zoning to be utilised to its maximum potential before moving forward on any plans to increase density.

And your Petitioners, as duty bound will every pray.
