I wish to express my great concern at the proposal to relocate Perth Modern School. It was my real privilege to teach at 'Mod' for some eight years as Senior Master (Music) and I was able to absorb the many intangibles which helped to make this a really wonderful school. There was a complete striving by all concerned to achieve the highest standards and a wonderful rapport between students and staff. Nearly 50 years later I am privileged to count as friends many of those I taught and I enjoy the continuing contact and genuine friendships which came from our association in this wonderful school. I loved my years as a teacher there and still have an abiding affection for the school – it has a permanent place in my heart. Please do not allow it to be destroyed.
