PETITION IN RELATION TO PROPOSAL FOR MANDATORY VACCINATIONS.

To the President and Members of the Legislative Council of the Parliament of Western Australia in parliament assembled.

We the undersigned of Western Australia are opposed to the Honourable Premier Mark McGowan's proposal to force mandatory vaccinations for this state with this draconian law threatening livelihoods, causing grievous anxieties and fears.

The proposed fines to employers and employees is the last straw to our so called ^{free} ~~fee~~ democracy.

These are health issues and we the residents of this state do not wish to be coerced or forced to have this jab against our convictions that our healthy immune systems could be compromised by a foreign experimental vaccine that has not had good results, causing severe health issues and even deaths.

Business should not be responsible to enforce government health directives under threat of fines and penalties. No one should be forced to have this vaccination or medical treatment that they do not consent to. These are fundamental principles in medicine and should be upheld.

Long term studies of this vaccination have not been done.

You may be exercising a very concern for our state's welfare but your misinformed sincerity has led you away from the truth of the matter.

Ignorance may be bliss for the misinformed or those that fail to see "Corona Virus" in a critical manner.

Your petition therefore respectfully request the legislative council to oppose the State's proposal for mandatory vaccinations.

We therefore as the Legislative Council to oppose the State's proposal for mandatory vaccinations.

We therefore ask the Legislative Council to oppose the State Government's proposal for Mandatory Vaccinations.

And your petitioners, as in duty bound, will every pray.
