---

Afternoon Lauren,

Please be aware that this afternoon the Shire of Esperance has hand delivered (via Talis Consultants) the "Referral of a Proposal to the EPA application form" with regards to the proposed landfill at Lot 12 Kirwan Road to the Environmental Protection Agency (EPA). The complete referral document contains some 1,024 pages of supporting documentation.

This referral is as per Council Resolution O617-139 (in June 2017) which requires any potential licence applications to be referred the EPA.

The referral contains the resolution from Council requesting for the highest level of assessment (Public Environmental Review), however as previously advised this will ultimately be an EPA decision.

If you have any questions, please do not hesitate to contact me as per the below.

**Scott McKenzie JP B.Bus**  
Manager Council Enterprises  
Shire of Esperance
