3155. Hon Robin Chapple to the Minister for Agriculture and Food representing the Minister for Mines and Petroleum:

I refer to the statement made on 19 February 2015 by the Minister for Mines and Petroleum about Buru Energy's Yulleroo 2 gas fracking well wherein he stated, "When they examined the wellhead installation, they found that two of the valves were in the open position. There are other safety factors to make sure that gas does not leak if the valve is open, but I will not go down that track. Fortunately, no gas was escaping. However, when the officers examined the valve, they found that the shaft had been bent and they could hear some gas leaking. They measured the gas and, fortunately, it was not a large quantity. However, there was visible damage to the valve. The initial inspection by Department of Mines and Petroleum (DMP) officers indicated that it could have been caused only by someone wielding a very large instrument such as a sledgehammer. This is an alarming incident and shows the lengths to which some people will go to stop proper gas and mining exploration in Western Australia. It is okay for people to protest peacefully, but this goes well beyond the standards that the people of Western Australia expect. I hope we get to the bottom of this matter and, if so, I will report back to Parliament.", and I ask:

- (a) given the Minister stated that two valves were open but no gas was escaping, due to other safety factors, whilst also stating that the DMP officers could hear a leak and measure gas coming out of a valve, will the Minister please clarify whether gas was leaking or not;
- (b) if there was gas leaking, what was the reading on the gas meter that led the DMP officers to determine that it was not a large quantity;
- (c) if there was gas leaking from a damaged valve, why was there no gas leaking from the other two valves that were determined to be in the open position;
- (d) did the DMP officers have evidence to show that the alleged damage to the valve was not, or could not have been, caused by Buru Energy or its contractors;
- (e) if no to (d), on what basis did the Minister conclude that the damage was caused by people trying to stop gas and mining exploration in Western Australia;
- (f) has the DMP investigation into this matter been concluded:
 - (i) if yes to (f), what has been the outcome of the investigation; and
 - (ii) if no to (f), when will it be concluded; and
- (g) has the police investigation into this matter been concluded:
