- c) Is Landgate included in the State Government's Voluntary Targeted Separation Scheme

Answer:

The Voluntary Targeted Separation Scheme (VTSS) is a Budget repair tool to assist agencies in meeting Machinery of Government (MoG) savings resulting from the amalgamation of a number of government departments as well as assist in achieving workforce renewal by enabling agencies to retain 20% of the savings. The VTSS is open to all general government employees, though priority is being given to agencies impacted by the MoG changes (which took effect from 1 July 2017).

Agency targets are Cabinet-in-confidence and were provided as a guide to assist agencies and Ministers with implementation of the scheme. While the reductions will vary between agencies depending on factors like MoG changes, the size and role of individual agencies and other impacts, all agencies are expected to contribute in order to meet the overall reduction target of 3,000 employees.

Agencies are currently working with the Public Sector Commission to progress the scheme via individual expression of interest (EOI) processes. The agency EOIs are currently at various stages, with all exits expected to occur by 31 March 2018. Progress will be reported to Cabinet during the 2018-19 Budget process, with the aim of achieving the 3,000 separations and reflecting the actual savings and costs from the VTSS in the 2018-19 Budget.
