

Estimates and Financial Operations Committee
2019-20 Budget Estimates Hearings

Western Australian Planning Commission

Hon Tim Clifford MLC asked:

1. Referring to Table 3 'Asset Management', in Budget Paper 2, Volume 2, page 627, what is the breakdown of costs associated with maintaining and conserving Bush Forever sites?

Answer

The management costs of Western Australian Planning Commission owned land are not broken down to this detail at present.

A new property management system is being developed within the Department of Planning, Lands and Heritage that is proposed to be able to identify costs on various purpose codes such as Bush Forever sites.
