

Dignitas: Mr Silvan Luley, Board member
Mr Ludwig A. Minelli, Founder and board member

Session 5 Thursday 8 March 2018

Clarification of Transcript: Please note these clarifications correspond numerically to the footnotes within the transcript.

1. This should read '...and explain for hours and hours'.
2. This should read 'It is kind of a "side effect" of what we do, because if you give the right to end your life when you want to end it, then you automatically...'
3. This should read: 'Here in Switzerland there are care homes, which do not accept that people living in it can have an accompanied suicide there; for them we also have our little house.'
4. This should read: 'One of them was an elderly medical doctor, and he brought up that idea, and said that it could be possible that there are rare patients with an anomaly in the stomach-intestine connection, pylorus I think it is called called—an anomaly in the stomach'
5. This should read: 'These people can ingest by intravenous, but they have to be able to activate a machine which pumps the pentobarbital into their vein.'
6. This should read: 'The next question I pose is: do you have a healthcare directive that puts into writing what you wish as to end-of-life choices?'
