

Department of Education

Hon Alison Xamon MLC asked:

1. I refer to Page 170 of the Budget under New Primary Schools, Line Item "Doubleview Primary School - rebuild" - I note that the total amount in the budget is \$800,000 more than that stated as part of the Joint Development Application Panel application for this build:

Could the Minister please explain why this variation exists?

Answer

In general, costs identified in development applications represent construction costs only and do not include planning and development costs such as professional, design and management fees.

In particular, the Honourable Member appears to be confusing the Doubleview Primary School rebuild budget with the development application of a second proposed project on the same site.

- The construction cost reflected in the development application for the proposed rebuild (at \$15.4 million) of Doubleview Primary School is \$13.978 million.
- The proposed redevelopment of the existing school for the International School of Western Australia has an allocated budget of \$18.6 million; the estimated construction cost as shown in the development application is \$14.6 million.

Department of Education

Hon Alison Xamon MLC asked:

- 2. I refer to page 160, Significant Issues Impacting the Agency, Third dot point:
 - (a) Would the Minister please elaborate on what a full service school entails;
 - (b) Where will the pilot be established;
 - (c) When will the pilot be established; and
 - (d) Are other departments contributing towards this pilot:
 - (i) If yes, which departments; and
 - (ii) If yes, how much are they contributing?

- (a) The purpose of a full service school is to improve educational and social outcomes for young people by providing them with better access to more coordinated delivery of the services and support they need to achieve and succeed. A full service school becomes the central point for young people to access human services, rather than having to access multiple locations for the range of services that they require. It provides the potential to extend existing partnerships and services, develop new partnerships and increase community access to school facilities and programs.
- (b) The site will be announced soon.
- (c) Planning is underway and the pilot will commence in Semester 1, 2018. It is a staged process, with full implementation of the pilot expected in 2019.
- (d) Yes.
 - (i) Department of Communities; Department of Health; Western Australia Police; and Department of Justice.
 - (ii) No direct funding is expected from participating departments. These departments will provide in-kind support in the form of services offered as part of the pilot.

Department of Education

Hon Alison Xamon MLC asked:

- 3. I refer to page 160, Significant Issues Impacting the Agency, third dot point:
 - (a) Is there any new funding in the 2017-18 budget for specialist support for students with challenging behaviours; and
 - (b) If yes, please advise which new programs or services will be funded?

- 3.
- (a) There is no new funding in the 2017-18 budget specifically for specialist support for students with challenging behaviours. There is, however, a total of \$13 226 000 being spent over four years to deliver the State Government's mental health programs in schools election commitment. The programs provided through this funding will build resilience, assist with emotional regulation, and help establish positive and respectful relationships, all of which moderate against instances of extreme and/or challenging student behaviour in schools.
- (b) Not applicable

Smithy

Department of Education

Hon Alison Xamon MLC asked:

- 4. I refer to page 160, Significant Issues Impacting the Agency, fourth dot point:
 - (a) Could the Minister please provide some information about any current or anticipated research partnerships, including:
 - (i) the research topic;
 - (ii) the research timeframe; and
 - (iii) who is undertaking the research?

- (i) The research will identify examples of schools effectively implementing one or more of the five standards of the Department's *Aboriginal Cultural Standards Framework* (Relationships, Leadership, Teaching, Learning Environment and Resources). The intent is that these best-practice examples will be shared and scaled across the system so that public schools become more culturally responsive and can better address the needs of Aboriginal students, families and their communities.
- (ii) The research will commence during the 2018 school year. The final timeframe will not be known until the research contract has been finalised.
- (iii) A tender process will determine who undertakes the research. Contract/s will be awarded in accordance with State Supply Commission Policy requirements.

om 2hr

Department of Education

Hon Martin Aldridge MLC asked:

- 1. I refer to page 25 and 26 of the hearing transcript and in relation to the School Chaplaincy Program I ask:
 - (a) What amount of funding will be provided in 2017-18 and across the forward estimates by the State and Federal Government respectively;
 - (b) Which schools have funding allocated to them to engage a Chaplain and advise the FTE allocation for each school;
 - (c) Of those identified in (b) which schools currently are not utilising their funding for this purpose;
 - (d) Of those identified in (c) which schools are not utilising their funding resulting from an inability to attract a Chaplain to the school; and
 - (e) With respect to the religious affiliation requirements of chaplaincy funding, is this a State or Federal requirement?

Answer:

(a) The State Government will provide a total of \$10 482 771 for the In School Chaplaincy Program for the 2017-18 funding round. This comprises an amount of \$5 177 071 for 2017 and \$5 305 700 for 2018. Funding for both years includes indexation.

The State Government has allocated \$5 438 298 for 2019 and \$5 469 300 in 2020 for the In School State Funded Chaplaincy Program in the forward estimates.

The Federal Government has not yet advised if funding will be allocated for the National School Chaplaincy Programme post-2018.

(b) Schools are allocated funding, not FTE, for chaplains. Attachment 1 details the funding allocated to each school.

Schools listed in the National School Chaplaincy Programme receive \$20 000 (or \$24 000 if considered remote) from Commonwealth funding. The balance of the amount listed in Attachment 1 is funded by the State Government. This is because funds received by schools in the State-funded program are indexed. National School Chaplaincy Programme funding is not indexed. The State funds the difference to provide equity across all public schools funded for a chaplain.

(c) All schools are required to utilise chaplaincy funding for chaplaincy services. No public school uses this funding for any other purpose. Some schools do not utilise their funding because they cannot secure the services of a chaplain (see response to (d)).

- (d) Attachment 2 lists the schools that are not utilising their chaplaincy funding due to inability to secure a chaplain.
- (e) The Commonwealth-funded National School Chaplaincy Programme requires religious affiliation. The State-funded program was created as an extension of this program and currently includes the same stipulation.

Son Zilling

Department of Education

Hon Martin Aldridge MLC asked:

- 2. I refer to page 13 and 14 of the hearing transcript and I ask:
 - (a) Can you please provide a copy of the policy or guidelines used by the government to assess the potential closure of schools; and
 - (b) With respect to the classification of remote community and isolated schools and rural primary schools, can you please list the twenty smallest schools that fall within each category including their enrolment number for 2017 and projected enrolments for the next three years?

Answer

- (a) The following criteria for the opening and closing of small primary schools, are in place and are the same criteria in place under the previous government.
 - There has been a consistently low average enrolment for at least two years. This is 10 students or fewer for remote community/isolated schools, 15 students or fewer for rural primary schools and 150 students or fewer for metropolitan primary schools.
 - There is no indication of growth in student numbers in the foreseeable future.
 - For rural schools, students are within daily travel of another school.
 - The maximum daily travel distance adopted is the standard supported by the Public Transport Authority School Bus Services, which is 90 minutes of travel time, one way.
 - A nearby school has the capacity to enrol students from the closing school with minimal or no capital works.
 - The school does not cater for special groups of students, such as those enrolled in an Intensive English Centre, and there is no intention to change this in the future.

(b) Please refer to Attachment 1.

Department of Education

Hon Martin Aldridge MLC asked:

- 3. I refer to page 16 of the hearing transcript and I ask:
 - (a) Who has been consulted to undertake an assessment of maintenance works required at Moora Residential College;
 - (b) What is the cost of the consultancy;
 - (c) Will you provide a copy of the report prepared as a result of the consultancy; and
 - (d) When was the report provided to government by the consultant?

- 3. (a) Armstrong Parkin Architects were engaged to assess fire compliance at the College. Further assessment to address other areas of compliance and maintenance is yet to be completed
 - (b) The cost to date of the consultancy is \$13 710.
 - (c) A copy of the fire compliance upgrade interim report is attached.
 - (d) The interim report was provided to Department of Education on 9 October 2017.

Attn: lan Williams Email: lan.Williams@finance.wa.gov.au

MOORA RESIDENTIAL COLLEGE - FIRE COMPLIANCE UPGRADE REPORT

Dear lan

As requested please find below and attached our report.

INTERIM REPORT

REPORT SCOPE

The scope of work for the report directed by you was to:

- 1. Identify the scope of construction and other works necessary to achieve a fire compliant facility.
- 2. Identify the likely costs associated with those works.

REFERENCES

The following references were used in preparation of this report.

BMW archive – As constructed drawings Building services engineers initial site inspection reports. Armstrong Parkin Architects site visit photographs.

SUB-CONSULTANTS

The following sub-consultants have been engaged to advise in preparation of this report.

ElectricalBEST – Michael HiggsBuilding SurveyorSchwanke – Annette BellHydraulicHydraulics Design Australia – Joseph TilliQuantity SurveyorErik Postmus

APPROACH AND ASSUMPTIONS

Our approach to the preparation of this report was to:

- 1. Meet with all fire services related sub-consultants
- 2. Discuss and determine a practical approach to the facility upgrade with as little cost as possible.
- 3. Update and complete a measured drawing of the existing facility.

The previously prepared building services engineers and building surveyor reports identified numerous non-compliances with the existing construction, namely:

- Water fire service supply pressure is inadequate.
- Water fire service supply hydrants are inadequate.
- Detection and warning systems are not reliable or complete.
- Bounding construction to Sole Occupancy Units (SOU) is inadequate.
- Other non-compliant aspects of construction.

The outcome of the consultant meeting determined a guiding principle for completion of fire upgrade works. That principle is to create 500m2 or less fire compartment areas with upgraded fire detection and warning systems. The Building Code of Australia requires a fire fighting water service with adequate pressure <u>or</u> reduction in the size of 'buildings' to less than 500m2 in order to achieve compliance.

The approach to the upgrade is to detect, warn and evacuate occupants from the building regardless of firefighting capability. Even with a fire fighting capable service the occupants would be evacuated. The priority is to protect lives not buildings.

The consultant team took the view that the cost to upgrade the fire water service with fire tanks and pumps in order to meet a complaint fire service was unnecessary if the priority is to detect and evacuate occupants.

In determining the extent and method of upgrading the building construction to compliance we undertook a desktop investigation of as constructed drawings. A site visit and inspection of the roof spaces has not been undertaken.

PROPOSED WORKS

Please refer to the attached drawing SD02-C which illustrates and schedules the proposed works.

The extent of building works is as follows:

Demolition

 Removal of corridors that extend from the dormitory buildings to the staff quarters. This reduces the exit distances from the SOU to exit doors and achieves compliance.

Walls

- 60/60/60 fire rated bounding construction to each SOU
- 90/90/90 fire rated bounding construction to each fire compartment of less than 500m2

Doors and Windows

- Replacement of all doors to SOU to achieve a 60/60/60 fire rating.
- Replacement and installation of fire rated exit doors to achieve 90/90/90 fire rating.
- · Removal of some doors and windows and infill brickwork where these openings occur on fire compartment walls.
- Removal of some doors and windows and replacement with fire rated doors and windows.
- Installation of 6 roof windows to rooms that do not have compliant light and ventilation.

Flooring

 Carpet and vinyl flooring replacement and any other lining material that is not able to be accurately identified in terms of fire event performance.

Ceilings

Remove existing non-plasterboard ceilings (such as melamine panel grid type ceilings) and installation of new
plasterboard ceilings.

Services

- Upgrade the existing fire detection and warning systems with additional and new infra-red and smoke detectors, alarms and sirens.
- Modify FIP as required.
- Initiate a monthly fire system testing and maintenance program (DoE and College responsibility)

LIKELY COSTS

The Quantity Surveyor has identified a construction cost of \$696,800 + GST.

We anticipate that an Estimated Total Commitment including professional fees, disbursements and some non-construction costs would be in the order of \$750,000 + GST.

Notable costs identified in the cost report are:

- Carpet and Vinyl \$181,900 + GST. If we are able to procure fire performance data on existing carpets and vinyls
 and that these products meet required standards then replacement is not necessary. Given that we do not have
 this information we have chosen to allow for full replacement.
- Contingencies \$116,200 + GST. The quantity surveyor has allocated a healthy allowance of 20% for both design and construction contingencies.

Moora Residential College Fire Upgrade Opinion of Probable Cost Indicative Cost

This opinion of probable cost of construction (OPC) is based on my experience and qualifications and represent my judgement as a consultant familiar with the construction industry but shall not be a guarantee that construction costs will not vary from this OPC. It is further noted that I have no control over the cost of labour, material or equipment, the means methods and procedures of the construction process or the competitive bidding process.

The OPC is Current at 9 October 2017

The OPC is based on

Armstrong Parkin Architects drawings SD02 & SD03 amendment C dated 6.10.17

No specialist cost advice has been received for

Electrical services Mechanical services Hydraulic services

The following are excluded

Latent site and building conditions Removal of loose furniture and equipment Professional fees Escalation beyond October 2017

Department of Education

Hon Martin Aldridge MLC asked:

- 4. I refer to your answer to question on notice 2(c) prior to estimates hearings and I ask:
 - (a) Is it possible to provide the operating costs associated with the boarding component of agricultural colleges in isolation to other activities?

Answer

(a)

College Name	Total
WA College of Agriculture - Cunderdin	\$1 472 885
WA College of Agriculture – Denmark	\$1 374 361
WA College of Agriculture – Harvey	\$1 446 315
WA College of Agriculture – Morawa	\$1 269 973
WA College of Agriculture – Narrogin	\$1 512 295
Total	\$7 075 829

Note: The total includes residential operating allocation, salaries and utilities.

Sm. Um

Department of Education

Hon Martin Aldridge MLC asked:

- 5. The answer to question on notice number 2(d) prior to estimates hearings and I note the differential between boarding fees at residential colleges and agricultural colleges and I ask:
 - (a) Does the government intend to review the fees charged over time to average out the boarding costs between facilities; and
 - (b) I refer to the evidence by Ms O'Neill on page 14 of the transcript which suggests that residential colleges have a greater economy of scale as they number 9 in comparison to agricultural colleges at 5, however I ask for clarification in this respect as the boarding costs are considerably higher for those students attending residential colleges?

- (a) No. It is not the intention of government to average the boarding costs across the facilities. However, the government will consider ways to move towards increased parity of boarding costs between facilities over time.
- (b) The Honourable Member is correct. Economies of scale are achieved at the agricultural colleges due to their higher enrolments and fewer numbers of colleges. A letter of correction has been sent to the Committee.

Sonzim

Department of Education

Hon Martin Aldridge MLC asked:

- 6. I refer to the Boarding Away from Home Allowance (BAHA) and I ask:
 - (a) has a review been undertaken of the BAHA;
 - (b) if yes to (a) please advise when the review was completed, who conducted the review and what the recommendations of the review were;
 - (c) if yes to (a) please provide a copy of the review;
 - (d) with respect to calendar year 2015 and 2016 please advise how many BAHA grants were made, the location of the student, the year of the student and the school attended by the student?

- (a) and (b) Yes. In October 2016 the Department of Education undertook a highlevel internal assessment of the Boarding Away from Home Allowance (BAHA) as part of a routine review of allowances.
 - (c) No formal report was prepared on the assessment.
 - (d) Refer to Attachment 1 and Attachment 2.

2. Information on student year level is not available for Boarding Away from Home Allowance (BAHA) Agricultural Special Subsidy payments

3. Pro-rata boarding (0.25 per term), applies where the student moves between schools and boarding providers during the school year.

4. Students that board for part of the year and leave school are reported as one application for the purposes of this Table.

Department of Education

Hon Martin Aldridge MLC asked:

7. Following machinery of government reforms within the department, please detail the current reporting arrangements and oversight of the State's agricultural and residential colleges?

Answer

Currently as part of the interim structure, the five agricultural colleges, as independent public schools, have a direct reporting relationship to the Director General through their Delivery and Performance Agreement. Central support is provided to the agricultural colleges through the Manager Agricultural Education and Regional Development.

The nine residential colleges report to the Manager, Residential Colleges.

It should be noted that these reporting arrangements are not solely related to machinery-of-government changes.
