

Tabled 29/8/14 - Session #6 TPI.

Fiona Joy Hepple

22nd August 2014

To whom it may concern

I would like to present issues re PATS for

- Initially she presented to Carnarvon Dental Surgery but they are unable to do this procedure as there is bone involvement, therefore referred to Dr Harris Greenburg, Specialist Oral & Maxillofacial Surgeon.
- She attended the consultation in Geraldton in July 2014 for which she was denied PATS.
- She now has this appointment September 24, 2014.
- She is entitled to a Medicare allowance of \$1000 for dental but this does not apply to her operation as it is not classified as dental.
- She has been denied PATS as the department classifies it as dental ?

Therefore either way we cannot get PATS or the Medicare allowance, so what is it classified as. It's not dental and it is dental ???

Your assistance in this matter would be greatly appreciated. It is necessary due to the complications it is causing eg. headaches, ear infections and maxillary infections which can be validated by Dr Nnaemeka Eze at Carnarvon Medical Centre.

Yours sincerely,

Fiona Joy Hepple
(Mother)
