Subject: Correspondence from Standing Committee on Environment and Public Affairs - Guildford Road WAPC 1310/41 - Petition
Date: Sunday, 2 July 2017 9:46:04 PM

Importance: High

Thank you for your correspondence Lauren. It is noted that time has overtaken us as the Minister and WAPC have now advised discontinuance of the proposed widening of Guildford Road (the subject of this Petition) and the Guildford Road Action Group - on behalf of the local community impacted by WAPC1310/74 - respectfully discontinue the current Petition.

We thank the local Members of Parliament - Lisa Baker and Alanna Clohessy - for their active support on this matter and obviously the Minister and Premier for their ongoing support in this matter.

It is intended from here that the Action Group will discontinue in its current form as the Guildford Road To Ruin Action Group and rebirth itself on Facebook and Instagram as the Guildford Road to Revival with the intent to engage in a positive process with the WAPC, MRWA and the Local Government members of the City of Bayswater to facilitate the community ratified development and repairs to Guildford Road in 2017.
