Mr Mark Warner
Committee Clerk
Standing Committee on Environment and Public Affairs
Parliament House
PERTH WA 6000

Dear Mr Warner

TRANSCRIPT OF EVIDENCE – PETITION NO 125 – RESTORATION OF THE ELECTRICITY NET FEED-IN TARIFF

Thank you for the opportunity to comment on the transcript of evidence from the Committee hearing of 21 March 2012.

Transcription errors have been completed in the attached documents as requested.

Factual corrections and items where it was advised a follow up response would be provided are as follows:

- Page 7, paragraph 4 – The overshadowing limits commence at 25% for lower density properties increasing to up 50% for higher density properties.
- Page 8, paragraph 6 – the cost of the tariff adjustment Community Service Order is in the order of \$367 million for 2011/12.
- Page 9, paragraph 9 – The requirement for mandatory disclosure of the energy efficiency of residential buildings at point of sale or lease was due to commence in 2012 but has been delayed and is likely to now commence in around 2013/14.
- Page 10, paragraph 6 – the energy efficiency requirements for commercial buildings have included major energy using equipment such as chillers and lighting since 2011.

Yours sincerely

MICHAEL KERR
A/DEPUTY DIRECTOR GENERAL

PUBLIC
