I strongly support the Art and Music courses offered at Denmark TAFE. The discontinuation of the Certificate 3 and the Diploma course would have a marked impact on the community.

I am an educator who has worked extensively in primary, secondary and tertiary education. My experience has shown me that the arts are the foundation of all learning, and a society that fails to encourage and facilitate the learning of skills and knowledge in the disciplines of music and visual arts will be greatly disadvantaged. Rather than removing programs in this area, TAFE should consider adding to the well- established traditions here in Denmark that honour the arts.

Furthermore, if economic development is considered, Denmark has a sustained industry in the arts that provides income for the individuals concerned and for the town in general.

Rural towns need more input into their education programs, not less. Please reconsider this short sighted plan to dismantle a strong component of community life that contributes significantly to the well being of the people and this town.

Yours sincerely
K Atkinson

To: To: Local politicians, GSIT Director and Governing council

GSIT is the only accredited Visual Art and Music institution in the Great Southern region. From 2013 they will be discontinuing their Visual Art and Music programs. We do not want this to happen! Cost cutting measures should not affect cultural programs that are not economically driven.
