### **3. Budget Allocation for Infrastructure in Regional Western Australia (Moved - 31/5/06)**

Adjourned debate (Mr G.A. Woodhams - continuation of remarks) on the motion moved by Mr B.J. Grylls -

That this House condemns the Labor Government for its failure to recognise the infrastructure needs of Regional Western Australia in the 2006/07 Budget, given –

- (a) the majority of the State Government's record \$2 billion surplus has been generated courtesy of the booming regional-based resources sector – but there is evidence that the regional economies have not benefited from this activity; and
- (b) the Government has set aside \$1.3 billion (65 per cent) of the \$2 billion budget surplus to pay off the Perth to Mandurah rail project at the expense of much needed investment in Regional Western Australia,

and calls on the State Government to provide a significant funding boost to regional development in this State to fundamentally re-adjust the prospects for long-term sustainable growth in our regions.

### **4. \*Road Traffic (Smoking in Motor Vehicles) Amendment Bill 2006 (Dr K.D. Hames) (No. 151, 1r. - 22/6/06)**

That this House –

- (a) acknowledges the public interest in and concern about the road toll;
- (b) notes that there has been a plethora of suggestions about how road safety concerns might be addressed, including –
  - (i) better road design;
  - (ii) more use of in-vehicle technologies to improve safety;
  - (iii) more and better driver education programmes;
  - (iv) severe curfew conditions on young drivers;
  - (v) 30km/h speed limits not just on local roads but, to quote the head of the Government's Office of Road Safety, "any road where there was a chance a car could hit a pedestrian";
  - (vi) 90km/h speed limits on most of the State's country roads, and a maximum limit on all the State's highways of 100km/h; and
  - (vii) generally higher fines and penalties,
 and notes that while some of these ideas have merit, others are impractical and ineffective and represent a level of desperation and lack of new ideas from the existing authorities;
- (c) notes community concerns about the funding arrangements for the Office of Road Safety, and particularly the obvious contradiction that funding from the Office comes from traffic fines and it must therefore emphasise this area in order to sustain its operations, notwithstanding that non-revenue options such as education, road and vehicle design have as much a role to play in the road safety arena as penalty provisions;
- (d) notes that the current road safety strategy for Western Australia, Arriving Safely: Road Safety Strategy for Western Australia 2003-2007, has almost run its course and a new strategy is needed;

- (e) calls on the Government to undertake a thorough and comprehensive review of the road safety system, to develop an integrated and evidence-based approach to road safety;
- (f) notes that the Opposition offers its full co-operation in terms of bipartisan involvement in this review and support for any worthwhile initiatives that arise from the review;
- (g) enables membership of the review committee to include the following: a chairperson, being a member of the community with some knowledge of road safety; a member of Government; a member of the Opposition; a representative of the Office of Road Safety; and a fifth member to be decided by the Minister; and
- (h) that the inquiry report to the Minister for Police and Emergency Services by 31 December 2007, and that the Minister present the report to the Legislative Assembly within three months of receiving the report, together with a report on what action, if any, is proposed to be taken by the Government with respect to the recommendations of the inquiry.

- (b) “The real issue is what we do with the uranium we mine, not how many places we mine it.” (*Sydney Morning Herald*, 25 July 2006)
