

(b)(i) Table A provides a summary of community service contracts held by Government with community service organisations in 2015-16. Names of individual organisations that held contracts in 2015-16 are provided at Table B.

(b)(ii); (b)(iii); (b)(iv); (b)(v) and (b)(vi). This level of individual service agreement information is not readily available from the data held by Treasury and considerable additional work would need to be undertaken with individual agencies to provide this information.

However, in response to (b)(iii) and (b)(vi), Table C identifies the number of community service contracts held by individual agencies, and the total spend of individual agencies on community service contracts in 2015-16 (Table C).
