PAT Chair is Brad Delavale.	Functional specifications due for completion late March 2019. Publishing of tender scheduled for April 2019.
<b>Concept Design</b>   Concept Development		

<b>Piloting the Model - Continuing Work Previously Started</b>		
The project has mapped the status of fleet vehicles that were part of previous work against the new model. Gaps have been identified and, where feasible, we will close them through application of the new model and its guiding principles.		
* There have been a number of vehicles where specifications were developed with limited stakeholder engagement. Importantly, we are looking for opportunities to involve stakeholders now where we can.		
** Interim Contracts for new builds will go through a first of build assessment which aligns to the Acquisition- First of Type stage.
