On Behalf of the Government of Tamil Nadu and the Department of Information Technology, it is my pleasure to invite you for our inaugural startup, technology and skill conference and expo – Umagine (www.umaginechennai.com) which is to be held in March 23 – 25th, 2023 in the city of Chennai.

The theme of the conference is to look ahead to discuss the new wave of entrepreneurship and ideas that are pushing society forward, what the workforce of the future will look like and will have to be equipped with, and the breakthrough technologies that are emerging that have the immense potential to shift the paradigm of almost every industry as we know it.

The relationship between India and Australia – especially of Tamil Nadu and Western Australia is one that we are very keen on, as we see this as a dawn of a new future together.

We would like to invite you along with a delegation of members from the start-up, technology, investment, research community to join us for this event as we celebrate the making of the future ahead.
